the United States government for damages. It is generally conceded that Lieut. Tuttle acted entirely outside the law in breaking up the captain's papers. The law, it is understood, merely authorized him to take a schooner to some American port with all on board.

GENERAL FOREIGN NEWS. A Tariff Imposition Which Canada Is Not

Willing to Adjust. OTTAWA, Ont., Aug. 8.-The American consul here has again drawn the attention of the Dominion government to a discrepancy in the customs tariff as regards the importation of certain articles of forest products, which he believed should not exist. It is with reference to the imposition of duty by the Dominion government on all railway-ties, poles and posts coming into Canada, while the statute clearly defines that all logs and round unmanufactured timber shall be admitted free of duty, and which are admitted into the United States from Canada on the free list. The government has replied that railroad ties and fence posts are dutiable at 20 per cent. Telegraph poles, not further manu-factured than trimmed (the bark on) are free. The consul says he sees no other recourse than to rely on the provisions of the third section of the proposed bill which will be pressed before the coming Con-gress in connection with the log export duty question. The section referred to authorizes retaliation.

American Workmen Abroad.

LONDON, Aug. 8.—The fifty members of the Scripps league of American workmen's expedition were entertained at dinner at the Tavistock Hotel to-night. Mr. Lincoln. United States minister, and Messrs. Howell, Fenwick, Burte, Cremer and Biggar, members of Parliament, were present. Mr. Lincoln, in a speech, dwelt upon the strength and prosperity of Eng-land and America, which, he said, were based upon lasting foundations. Skilled workers in those countries secured blessings that were unknown in countries in which the populace consisted of soldiers and peasants. He hoped the members of the expedition would derive benefit from their t ur of England through comparing the Correcte between working life here the United States. Several other addre s were made.

French and Russians Disappointed.

Special to the Indianapolis Journal. LONDON, Aug. 8.-The Russian and French press take no pains to conceal the annoyance which seems to be felt in both countries at the warmth with which Emperor William was received in England. But great as is the annoyance, the surprise is greater yet at what they speak of as the veering of English opinion. They evidently expected, if not that the young Emperor would be hooted at and reviled by John Bull, at least that the coldness of his reception would be sufficiently marked to leave its impress upon the future relations of the two powers. Entirely disappointed in this expectation, the French express their disappointment almost universally, and the Russians very largely rush to the other extreme and express their opinions that England and Germany are on the point of concluding an alliance, offensive and defensive.

English Immigration.

LONDON, Aug. 8 .- The committee appointed by Parliament to consider the question of immigration recommends that an annual census be taken of aliens arriving and settling in Great Britain. The committee thinks it inadvisable at present to enforce laws similar to those enforced in America against destitute immigrants, but it says that the country ought to contemplate the early necessity for such legislation in view of the extreme pressure of existence among the poor, and the tendency of destitute foreigners to lower the conditions of living, especially in great towns.

Dr. Tanner Will Stay in Prison.

DUBLIN, Aug. 8.—Dr. Tanner, member of Parliament for Cork, was recently sentenced at Tipperary to one month's imprisonment for assaulting Police Inspector Stephens, in May last. When judgment was pronounced he cried out in the dock: "I defy you. The magistracy are the real criminals." For this outbreak three months was added to his sentence. Application was made by Dr. Tanner's friends for a writ of habeas corpus, which the Court of Appeals to-day refused to grant, on the ground that the magistrates have power to commit for con-

San Francisco, Aug. 8.—The Japan Gazette, received by the steamer Arabic, says that about one hundred persons were drowned, 12,000 houses washed away and about 2,500 acres of cultivated lands seriously damaged in four of the seven cantons which suffered most from the overflowing of the river Chikugo, in Fukuokaken, by the recent heavy rains. Relief funds have been started in various parts of the empire.

The War in Hayti.

New York, Aug. 8.—The steamer George W. Clyde, from Hayti, reports that the attack on Port-au-Prince was still in progress Aug. 2. It was reported, however, that Hyppolite had landed a force on the oppo-site side of the island, and was about to attack the city from the rear, in which case he would have a decided advantage.

GREEN HAS HIS TURN.

President of the Western Union Replies to Mr. Wanamaker's Letter.

NEW YORK, Aug. 8.-President Green, of the Western Union Telegraph Company, in a reply to Postmaster-general Wanamaker's letter of Aug. 2, on the subject of rates for government telegrams, reiterates the statement that the act of 1866 conferred no special benefits on the Western Union company. It did not, as held by the Postmastergeneral, confer the right to use all highways without compensation. On the contrary, the company pays railroads, plankroads and individual owners for rights of way, and has to obtain licenses and rights of way in streets from municipalities, or condemn and buy them under State laws, just as if no national law existed. The law granted the use of government stone and timber, but it had never been expedient for the company to use these. It granted forty acres of government land for telegraph stations, but no stations have been established on such land. It granted right of way over government land, but, except where lines have been extended to military posts this privalence. In a letter written that day, to his wife here, Hislop said he would commit suicide. He was a prominent Odd-fellow and Knight of Honor, of which latter body he was treasurer. No funds were missing, and no reason for suicide could be assigned. Many believed the suicide theory to be wrong, yet he was generally mourned as dead. In the darkness of been extended to military posts, this privilege has not been made use of, and in these cases it was used only for the convenience of the government.

President Green agrees with the Post-master-general that the rates should be a "just compensation," and he takes "just compensation" to mean a sum that will cover the actual cost of the service, with something added for the use of facilities

necessary to perform the service. President Green shows by an analysis of the facts that the government rate is the lowest given any customer; that the press rate is higher when the dispatches are reduced to their equivalent lengths in messages; that the rates on signal service business have been greatly reduced in the nine-teen years that the service has been in operation; that the rate on all government business has been reduced about 50 per cent. the past twelve years, which is proportionately more than the reduction on general business.

OBITUARY.

Robert Healy. ANAMOSA, Ia., Aug. 8.—Robert Healy, an old and well-known citizen with a romantic history, died this morning at his home here, aged eighty years.

The deceased was a native of County Waterford, Ireland. He received a classical education in the old country, entered the Catholic priesthood on obtaining his majority, and soon after joined the Order of Trappists. In 1845 he came to America in company with the monks who established the famous monastery at New Mellary, Ia. Healy was one of the leaders of this sturdy band, and maintained his connection with it until 1859, when he fell violently in love with a beautiful young lady who lived near the monastery, and whom he was in the habit of meeting clandestinely from time to time. The two became so deeply enamored with each other that Healy finally broke the vows of life-long celibacy he had taken, by marrying the young lady, for which act he was expelled from the order and excommunicated from the Catholie Church. Disowned by his brother monks and denied the benefits of his church he became morose and hypohondriacal, which resulted in partial dementia before his death. During the civil war he entered side Union was one of the bravest soldiers in the heroic Thirty-first Iowa Infantry, receiving several wounds, for which he drew a pension from the government. General Henry Dupont. WILMINGTON, Del., Aug. 8.—General Henry Dupont, since 1850 head of the extensive gunpowder manufacturing firm of E. I. Dupont, De Nemours & Co., died early this morning. He was prostrated by an attack of heart failure about two months ago, from which he rallied temporarily, but grew worse again a few days ago.

General Henry Dupont was the second son of Elenthere Irene E. Dupont, the founder of the works, and was born at De Nemours, the family residence on the Brandywine, Aug. 8, 1812. He was the last of the second generation from the founder. His younger brother Alexis was killed by an explosion at the mills, Aug. 22, 1857. Politically, General Dupont was active and influential as a Whig and later as a Repubican. He was on the Republican electoral ticket in 1876, 1880, 1884 and 1888, but would accept no more substantial political honors. He served in the Seminole war and was made major-general of the State militia early in the civil war. His wealth, including a large private estate, was estimated at

STEAMSHIP NEWS.

How the Montreal Was Wrecked Off Belle Isle Last Sunday. QUEBEC, Aug. 8 .- Captain Bentley, of the

Allan line steamer Assyrian, arrived here to-day. He reports that on Monday last, as the Assyrian was sailing into the straits of Belle isle, she was signaled by the lighthouse-keeper that the Dominion line steamer Montreal was ashore. Coming into the straits, the wrecked steamer was seen lying on her starboard beam ends, and only a small portion of her hull could be seen out of water. Captain Wall, of the Mon-treal, with his crew and passengers, numbering in all about sixty persons, were on the island of Belle Isle awaiting help. He went on board the Assyrian. He said that on Sunday, the 4th inst., he was sailing through the straits, when a thick fog came on, and lasted a very long time, without his being able to hear any of the surrounding fog-horns. Icebergs were numerous, and compelled him to change his course and to stop or reverse the engines in order to prevent a catastrophe, and thus the steamers's exact position on the chart was lost. At last Captain Wall decided that, as the fog did not abate, he would pass between the land and a huge iceberg that barred the passage. Unfortunately the land was closer than he thought, and the steamer ran aground. The boats were hoisted out, and all hands were saved.

United Order of Odd-Fellows.

Special to the Indianapolis Journal. Brazil, Aug. 8.—The Grand United Order of Odd-fellows of Indiana has just closed the three days' sessions of its eighth anniversary here to-day. The exercises to-day were wholly social in character, consisting of a picnic at the fair-grounds, a street parade and a festival and dance at night. Considerable routine work was done at the regular business sessions yesterday and the day before, but most of it was private and of interest only to the fraternity. Tried to Kill His Wife and Son.

Special to the Indianapolis Journal. JEFFERSONVILLE, Aug. 8.—Several shots, discharged in rapid succession, last night, at 12 o'clock, brought the police to Walnut and Market streets. The cause of the disturbance was an attempt by John Grayson to kill his wife and son, Harry, aged twenty years. When the officers arrived Grayson had fled, and they left Mrs. Grayson and son, who were thoroughly frightened, in possession of the house. At 3 o'clock this morning Grayson returned, and, gaining entrance through a window, opened fire a second time. Mrs. Grayson and son fled from the building in their night clothes, and escaped the bullets from Grayson's revolver. The officers hastened to the scene of the firing, but Grayson had fled, and has not been seen in the city since. Recently Mrs. Grayson entered proceedings in the Circuit Court against her husband for divorce, on the ground of cruel treatment, and since that time Grayson has been working at Madison. Last night he returned to the city and went to their house, it seems with the avowed purpose of murdering his wife and

The "Civilized" South.

ATLANTA, Ga., Aug. 8.—Postmaster Lewis and the Republican leader, Col. A. E. Buck, were burned in effigy to-night in front of the court-house in the presence of probably 10,000 persons. This action is the result of the appointment of a negro to a place in the registry department of the postoffice, where a white man was employed as clerk. Col. Buck is supposed to have induced Mr. Lewis to make the appointment.

Commanders Giving In.

KANSASCITY, Aug. 8.—There was received at the G. A. R. national headquarters here to-day a circular from Commander Booth. of the Department of Kansas, in which he strongly urges all the veterans of Kansas to attend the National Encampment at Mil-waukee. This is considered only the fore-runner of a similar circular from other department commanders who have heretofore urged the veterans to stay at home.

Robbed and Murdered.

ATCHISON, Kan., Ang. 8.—John A. Iden, a well-known farmer of Platt county, disappeared last Monday night. His dead body was found in Sugar lake, near here, this morning. It is supposed that he was mur-dered and robbed. Early in the day he de-posited \$500 with the postmaster at Sugar Lake and it is thought that the murderers supposed he had that amount about him.

Created Consternation.

NEWTON, Kan., Aug. 8.-Walter C. Miller, young man from Halstead, was taken violently insane here Friday night and escaped from the house where he was stopping perfectly nude. He ran to the Santa Fe depot and jumped into a passenger car, creating consternation among the passengers. He made his escape. A number of people are in pursuit.

Englishmen Buying Superior Iron Mines. ISHPEMING, Mich., Aug. 8.-Mining engineers representing English capitalists are making a thorough examination of the Braasad iron mines with a view of purchasing them. The price set is understood to be \$250,000. This is the first iron property in the Lake Superior district that English capitalists have been interested in.

Mrs. Weaver and Colonel Hill were appointed a special committee to confer with the Grand Temples of other States, looking to the organization of a Supreme Temple in the near future. To-morrow morning, at 9 o'clock, the brigade will go to the city and parade the principal streets. The brigade has furnished

the show so far, and General Ross has de-cided to give a grand display of fire-works on the lake, Saturday night, for its enter-tainment. The display will be made from a fort and ship on the lake. No trouble or expense will be spared to make the display as beautiful as possible. The fort is already up, and the ship in course of con-The review was witnessed by five thousand people.

The applause did not cease from the time the brigade staff approached the reviewing stand until the last division had passed. Mesdames Ross and Denny were among the most interested and enthusiastic spectators of the review.

The Sir Knights made a very imposing appearance in line, and the compliments
